You can be sure you will receive the best quality from Nature's Sunshine. There is no monthly obligation or volume to quality. Go to: http://www.mynsp.com/generali/index.aspx to look up the products and make your decision.</p>
	<p>SAVE \$50 On Our</p> <p>CERTIFIED Health and Nutrition Counselor Course</p> <p>Regularly: \$300.00 March: \$250.00</p>	<p>Online and CD-ROM course. The science of nutrition is the study of the nutrients in food and the body's handling of these nutrients. You are made entirely of what you have eaten. Your skin, which has reliably covered you from the time you were born, is not the same skin that covered you seven years ago; it is made entirely of new cells. The fat beneath your skin is not the same fat that was there a year ago. Your oldest red blood cell is only 120 days old, and the entire lining of your digestive tract is renewed every three days. To maintain your "self", you must continually replenish the energy you burn and replace the cells you lose. This course is designed to teach you about proper nutrition and the role it plays in your health and the health of others. Course is certified and approved and offers 40 CECs through the Board of Registered Nursing – Provider No. 13837.</p>

CADI WV5533

**Handheld
Digital
Iriscope**

8.0 Megapixel

**Regularly:
\$1,195.00**

**March:
\$1,145.00**

We are happy to report that we are carrying the **CADI WV5533 Digital Iriscope**. If you're an iridology student or a professional looking to work with clients in an office or other environment, this may be the portable professional camera for you.

What are some reasons you may choose this Iriscope?

1. Single handheld iriscope, Logitech CCD iris 30X lens.
2. The iriscope connects to a PC or Laptop in the USB port.
3. Handset: Switch for left & right eye.
4. Instruction and Warranty (English edition).
5. It's a great value and takes good images.
6. Portable dust-proof aluminum box.
7. Picture size (800x600, 960x720, 1600x1200, 2M, 4M, 8M)
8. Easy to operate.
9. Iridology Station 5.1 software sold separately, \$500.

Iriscope System Functions

1. This mode is good for enhanced detection of pupil deformations, ANW, and transversals.
2. Focus dial is located on side of magnification adaptor instead of on top. The location is much easy to access when focusing on iris images.
3. Light option to turn-on and turn-off right or left LED. This is good for blue eyes only, especially when observing heart sectors. Brown irises always require both lights left on.
4. Ability to adjust the focus to 1-3X, and save the photos according to the time you take them.
5. Ability to adjust the brightness automatically, delete photos, adjust focus, quick-fix photos with white balance, and high stability of color.
6. The iris analysis software allows you to enter client information and details of products after you take the photos. You can perform an analysis from the iris picture and print an analysis report.

**eyePIX
Handheld
Iridology
Camera**

10.0 Megapixel

**Regularly:
\$2,990.00**

**March:
\$2,940.00**

We are happy to report that we are carrying the eyePIX handheld Iridology Camera.

The eyePIX Handheld is the new exciting product which has been released by Iris Supplies. This product was designed to be inexpensive while maintaining a high standard of image quality required by all our iridology cameras. Unlike other cheaper Handheld Iridology Cameras on the market, the eyePIX Handheld uses a superior lighting system with flash to take true color images with the correct exposure. It also features a high quality 10 mega pixel SLR Digital Camera to guarantee high resolution images. This product is very portable and is now the lightest and smallest of our range. The eyePIX Handheld can be used for Iridology, Sclerology & Animal Iridology. It can also be convenient for young children and bed ridden people.

If you're an Iridologist or Practitioner on a budget that needs to be portable, and wants to take high quality images, then the eyePIX Handheld is for you.

Features:

- Specially designed lens for iridology
- Superior lighting system with flash for true color images
- Twin and single side lighting
- Small and lightweight
- 10 mega pixel camera
- Easy to use

The eyePIX Handheld does not use cheap and inferior LED lighting that distorts color and image quality and limits depth of field.

Software: Can be used with Iridology Station 5.1 iridology scanning software. Software is sold separately for \$500.

Carrying Case: Can be purchased separately for \$150.

Joyful Living Services in partnership with Allison Imaging is happy to announce that we can now offer a 12.2 MP Canon XSi camera that has the capability of viewing the eye live on the 3in LCD screen making focusing a breeze. We can also zoom in on the back screen 10X for even more precise and easier focusing.

This camera is a high resolution 12.2MP Iridology setup which offers uncompromising quality at an affordable price. The digital sensor in this award-winning camera incorporates extra large pixels that are specifically optimized for low noise and high saturation giving you the best image quality available. We use a highly regarded macro lens along with two flash units for a consistently better flash than from any fiber optic unit. This allows for greater depth of field and consistently clearer pictures. The flashes are still within the pupil so no part of the eye is obscured.

Because of the power of our unique Iridology system, you can greatly magnify the size of the image on your computer screen (see the examples on pages 4-6 of this handout). This gives you the option to zoom in and observe minute nuances that are simply unavailable with other cameras. See the pages 4-6 for examples of the quality you can add to your practice. Now check the images from other cameras and see why we are so excited to offer this setup at this price.

The portable fully adjustable custom stand is made of heavy duty plate aluminum with stainless steel guides rather than the plastic found in other systems.

SAVE \$1,100

On our

SD8004-Super Digital 12.2 MP Iridology Camera with live view and zoom to 10X on the back screen

Regularly: \$4,600.00

March: \$3,500.00 with face stand and case \$2,950 as a handheld

Software for iridology reporting is the Iridology Station 5.1 and is sold separately for \$500.

This gives you unequaled strength, stability and longevity. It is easy to set up on any table, at any location for ultimate portability and comfort.

The lighting system gives you perfectly illuminated shots every time without flash spots on the iris. The twin head focus light is embedded in the flash ring giving you ease in focusing while being easy on the client.

The camera comes with all the drivers, manuals, and instructions making it easy to take stunning pictures that will impress your clients and offer excellent clinical advantages over any other camera in this price range. We recommend the Iridology Station 5.1 software that will automatically scan the iris and compile a report that you can share with your clients making the start of your business a breeze. Camera comes with a 1-year manufactures warranty.

Camera model is a EOS Rebel XSi'. Camera comes with a 105mm macro lens. It features Canon's EOS Integrated Cleaning System, Live View Function, a powerful DIGIC III Image Processor, plus a 12.2-megapixel CMOS Sensor. The EOS Rebel XSi's refined, ergonomic design includes a new 3.0-inch LCD monitor, compatibility with SD and SDHC Memory cards and new accessories that enhance every aspect of the photographic experience.

New Product – HART on CD

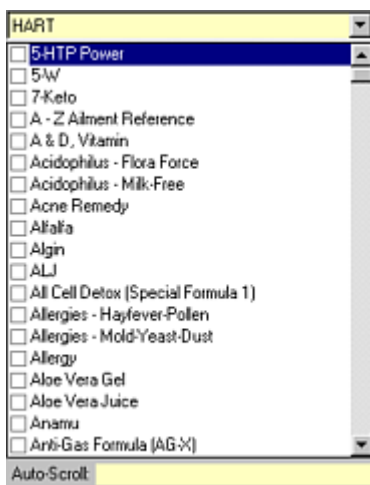

HART

The World's #1 Computer
Product Reference for Nature's
Sunshine Products!

The HART on CD program provides detailed scientific and university information on ALL NSP herbs, nutritional supplements, homeopathics and essential oils (aromatherapy). This software is a long-time favorite of leaders and trainers of NSP products. The NSP products information this software provides will literally sell products for you.

1. Comprehensive NSP product reference based on the world's #1 NSP reference... The HART Book ...Which contains nearly 600 pages of powerful, "product-moving" information
2. Powerful search-and-find capabilities... Search by ailment, ingredient, or word(s)
3. Print customized multi-document info-paks for your customers very quickly and easily
4. Create, search, and print your own library of documents... Get rid of that old filing cabinet!
5. E-Mail products info sheets simply, quickly and without any hassles for your customers. If they can click a link, they can view whatever you send them.
6. High-resolution color NSP product pictures... prints in color too (with a color printer)!
7. Quarterly update subscription available... program is never outdated! (All updates are currently FREE! See note below)
8. Right-To-Copy License... print pages for your customers... build your business
9. Ultra-fast and very easy to use... includes manual and 40-minute printed tutorial!

The main products list contains all NSP products. To find a product quickly, just type the first few letters in the "Auto-Scroll" box below the list. Any products beginning with these letters will instantly scroll into view.

Opening a Document

This software is very simple to use. To open a product page, just double-click the product name in this list (shown above). The product page is immediately opened in the right section of the screen ready for reading, research, and printing.

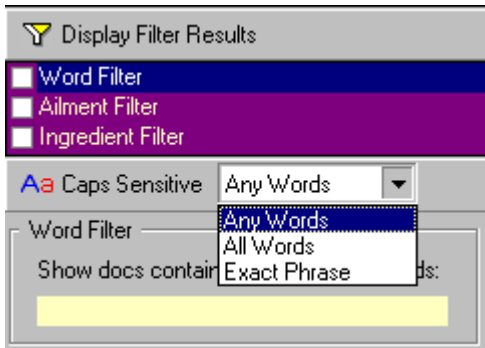

Printing a Document

Once a page is open, just click the convenient printer icon in the toolbar to print it. Select the printer you want to print to (if you have multiple printers) and the page immediately begins printing... in full color (if you have a color printer).

Printing Multiple Documents

Using the main products list (shown above), you can print multiple documents with ease. Just click the square box next to each product you wish to print. A check mark appears in the box when clicked. Now click the printer icon, select a printer, and all the pages you just selected begin printing immediately.

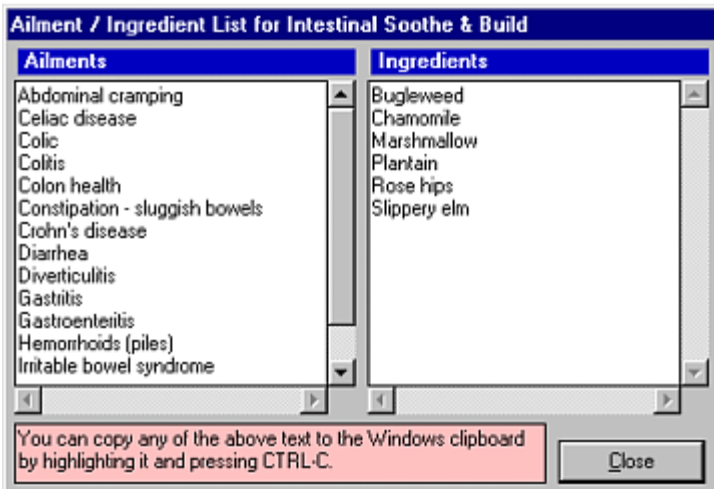

Conducting a Word Search

This is the Word Filter. Using 3 simple steps, you can conduct virtually any type of word search you want.

You can search through all the documents quickly and easily using a simple word search. Just type the word (or list of words) you want to find in the yellow text box, select the type of search you want to conduct, and click "Display Filter Results". Within seconds, all the documents that match your search have check-marks placed next to them in the main products list.

Ailment/Ingredient List for Each Product

The Ailment/Ingredient List allows you to get a quick view of all ailments associated with a product, and a list of all the ingredients it contains.

With a single click, you can display a list of all ailments and ingredients associated with the currently displayed product. When you have a document open, just click the "Show Ailment/Ingredient List" button on the toolbar. The window above will instantly appear.

E-Mailing Documents to Customers

Use the Export E-Mail function to e-mail HART product pages, or your own documents over the Internet.

HART on CD as easy as it could possibly be to email HART NSP product documents to customers. If you can send an email, then you can quickly and easily send information to your customers instantly!
Creating Your Own Documents

If you would like to build a business using Nature's Sunshine Products this program will give you all the direction you need to use the products for your clients. Speak with Brenda for more information!
