Here are some ideas if you are in remission from Cancer and are considering using natural products to help your body rebuild. We of course highly recommend that you consult your oncologist before taking any products listed below. Please call us with questions.

1. A good multiple plus fish oils as a base for general nutrition (**Super Trio**). The extra antioxidants from the Super Orac in the Super Trio, would be a good cancer preventive.
2. **Indole 3 Carbonal 2** per day – Can help break down any excess estrogen that could trigger cancer growth. Particularly good for breast cancer prevention.
3. **Vitamin D3** 2000 iu twice daily. Studies show that Vitamin D helps prevent certain cancers, including breast, ovarian, prostate and colorectal.
4. **Ultimate Greenzone** – Helps keep the body from becoming acidic, provides high amounts of antioxidants and cell protecting phyto nutrients.
5. **Noni Juice or Capsules** - Noni has strong anti-cancer properties as well as being a great tonic for the digestive, nervous and structural system. It also builds the immune system to keep it strong.
6. **Pro-G-Yam 500** - Helps with hot flashes and it does not stimulate estrogen but would rather help block and balance excess estrogen.
7. **Homeopathic Formula Menopause** - May be very helpful for the symptoms. It's nice as it can be kept by the bedside should awakening due to a hot flash.
8. Also very helpful is to add: **Vitamin E 400 iu** and **Super GLA 1 per day**
