Course Definition

Chinese Herbology is the theory of Traditional Chinese herbal therapy, which accounts for the majority of treatments in Traditional Chinese medicine (TCM). Traditional Chinese Medicine has its origin in ancient Taoist philosophy which views a person as an energy system in which body and mind are unified, each influencing and balancing the other. Unlike allopathic medicine which attempts to isolate and separate a disease from a person, Chinese Medicine emphasizes a holistic approach that treats the whole person. Many people have found Traditional Chinese methods of healing to be excellent tools for maintaining optimum health and preventing illness.
