Joyful Living Services' Reviews

Your website is responsible for MANY [hiatal hernia](#) referrals for me, so thank you! I even had one come from TUCSON, ARIZONA to stay by my office in NEW YORK for a week with great success. I get about one referral per month from you and they have worked out GREAT so thank you again. TWO more referrals from [Joyful Living Services](#) last week (a husband and wife, both with hiatal hernias). The wife was perfect after one visit and the husband is more chronic. Thank you! More people to help.

I am utilizing a new product/technology called ASEA in my office at the hospital with results that used to be unattainable, and are now commonplace. It is changing healthcare, through DC's, MD's, ND's, etc. This hospital is embracing it instead of tossing ME and IT out of here. Click on this link for more information and see more information in this newsletter: [ASEA](#). Dr. Foster Malmed, dchfrm@aol.com, 914-403-4697

Brenda's course for Certified Herbal Counseling has taught me so much. I truly enjoy all of what Brenda has to offer, and plan on taking more courses as well - Amanda Bears, Fertility Advocate, E-mail: myeggandme@amandabears.com, Web: www.myfertilityawareness.com. To download the course information, click here: [Certified Herbal Counselor Course](#).

Iridology Continuing Education Program

There has been an enormous amount of interest in Iridology Continuing Education Programs through Joyful Living Services. We are happy to announce that we now have a Continuing Education Program to follow our Iridology Certification.

1. **IIPA Certification**

To become Certified by IIPA (International Iridology Practitioner's Association <http://www.iridologyassn.org>) through Joyful Living Services complete the following:

- **Certified Iridologist Course** - Complete and pass the 3 levels of iridology (beginning, intermediate, advanced, final exam) and become a Certified Iridologist approved by the Board of Registered Nursing and Joyful Living Services. \$450
- **Sign up as an Associate Member of IIPA –** When you sign up for our iridology courses and/or if you are already taking our iridology courses, you can sign up as an Associate Member of IIPA through Joyful Living Services. Speak to Brenda about this. Cost is only \$50.
- **Anatomy and Physiology Course** – Complete and pass the Certified Anatomy and Physiology course. This course is approved by the Board of Registered Nursing and Joyful Living Services. A&P is required by IIPA for certification. All Iridologists need an understanding of how the various organs, glands and tissues interact. \$300
- **Purchase and Study:** "Iridology: A Handbook" by Kianna Smith. \$40
- **IIPA Exam:** Apply to take the IIPA Certification Exam. Apply through Joyful Living Services. Includes a 1-year membership to IIPA. \$100

Once the 4 items above are completed you will have a "**Double Certification**" through Joyful Living Services as well as through the International Iridology Practitioner's Association. A whole world of iridology will open up to you!! If you are already a Certified Iridologist through us, you can upgrade your certification by completing the items above. To register for the IIPA Certification Contact Brenda Generali at Joyful Living Services and/or fill out the attached registration form and mail or fax it.

	<p>NEW! CERTIFIED Women's Health Counselor Online Course Price: \$300 November: \$250 Save \$50</p>	<p>Women's health refers to health issues specific to human female anatomy. These often relate to structures such as female genitalia and breasts or to conditions caused by hormones specific to, or most notable in, females. Women's health issues include menstruation, contraception, maternal health, child birth, menopause, and breast cancer. They can also include medical situations in which women face problems not directly related to their biology, for example gender-differentiated access to medical treatment. This course is designed to teach you about your body and how to keep it healthy as you live your life to its fullest. The course starts on October 3rd. Pay for the course in full by the end of September and SAVE \$50! Go to http://www.joyfullivingservices.com/handouts/whcourse.pdf to download the course schedule.</p>
	<p>NEW! CERTIFIED Men's Health Counselor Online Course Price: \$300 November: \$250 Save \$50</p>	<p>Men's health refers to health issues specific to human male anatomy. These often relate to structures such as male genitalia or to conditions caused by hormones specific to, or most notable in, males. This course is designed to teach you about your body and how to keep it healthy as you live your life to its fullest. The course starts on October 3rd. Pay for the course in full by the end of September and SAVE \$50! Go to http://www.joyfullivingservices.com/handouts/mhcourse.pdf to download the course schedule.</p>
	<p>CERTIFIED Health and Nutrition Counselor Online or CD-ROM Course Price: \$300 November: \$250 Save \$50</p>	<p>Online and CD-ROM course. The science of nutrition is the study of the nutrients in food and the body's handling of these nutrients. You are made entirely of what you have eaten. Your skin, which has reliably covered you from the time you were born, is not the same skin that covered you seven years ago; it is made entirely of new cells. The fat beneath your skin is not the same fat that was there a year ago. Your oldest red blood cell is only 120 days old, and the entire lining of your digestive tract is renewed every three days. To maintain your "self", you must continually replenish the energy you burn and replace the cells you lose. This course is designed to teach you about proper nutrition and the role it plays in your health and the health of others. Go to: http://www.joyfullivingservices.com/handouts/chnccourse.pdf to download the course schedule. Certified and approved and offers 40 CECs through the Board of Registered Nursing – Provider No. 13837.</p>
	<p>Save \$295 on CADI WV5533 Handheld Digital Iridoscope 8.0 Megapixel</p> <p>Regularly: \$1,195</p> <p>November: \$900</p>	<p>We are happy to report that we are carrying the CADI WV5533 Digital Iridoscope. If you're an iridology student or a professional looking to work with clients in an office or other environment, this may be the portable professional camera for you.</p> <p>What are some reasons you may choose this Iridoscope?</p> <ol style="list-style-type: none"> 1. Single handheld iridoscope, Logitech CCD iris 30X lens. 2. The iridoscope connects to a PC or Laptop in the USB port. 3. Handset: Switch for left & right eye. 4. Instruction and Warranty (English edition). 5. It's a great value and takes good images. 6. Portable dust-proof aluminum box. 7. Picture size (800x600, 960x720, 1600x1200, 2M, 4M, 8M) 8. Easy to operate. 9. Iridology Station 5.1 software sold separately, \$500.

Joyful Living Services, in partnership with Allison Imaging, is excited to announce that we now offer both a **15.1MP** and an **18.1MP C Digital Iridology Camera** system that has the capability of extremely high resolution and uncompromising quality at affordable prices.

Our Iridology Systems are based on either the 15MP Canon T1i E or the 18MP Canon T2i EF-S. Both Iridology systems use a highly rated, crystal clear 105mm macro lens for unparalleled performance and clarity.

Both cameras feature a newly designed oversized Canon CMOS sensor specifically optimized for low noise and high saturation, giving you the best image quality available. They also come with the DIGIC 4 Image Processor, a 3.0-inch Clear View LCD with anti-reflective and scratch-resistant coating. You'll have uncompromised Digital performance with power and flexibility in the palm of your hands.

We use a highly regarded macro lens along with two flash units for a consistently better flash than from any fiber optic unit. This allows for greater depth of field and consistently clearer pictures. The flashes are still within the pupil so no part of the eye is obscured.

Software for iridology reporting is the Iridology Station 5.1 and is sold separately for \$500.

The portable fully adjustable custom camera stand is made of heavy duty plate aluminum with a beautiful "Brite Dipped" face mount rather than the plastic found in other systems. This gives you unequaled beauty, strength, stability and longevity. It is easy to set up on any table, at any location for ultimate portability and comfort.

The lighting system gives you perfectly illuminated shots every time without flash spots on the iris. The twin head focus light is embedded in the flash ring giving you ease in focusing while being easy on the client.

The camera comes with all the drivers, manuals and instructions making it easy to take stunning pictures that will impress your clients and offer excellent clinical advantages over any other camera in this price range. We recommend the Iridology Station 5.1 software that will automatically scan the iris and compile a report that you can share with your clients making the start of your business a breeze. Camera comes with a 1-year manufactures warranty.

Because of the power of our unique Iridology systems, you can greatly magnify the size of the image on your computer screen. This gives you the option to zoom in and observe minute nuances that are simply unavailable with other cameras. Scroll down to the end of this flier to see examples of the quality you can add to your practice.

Now compare the images from other cameras and see why we are so excited to offer this package at this price.

Examples of the quality you can produce with the SD8004

Examples of the quality you can produce with the SD8004

What several of our Customers have said about the SD8004 and Services:

Hi Brenda; My SD8004 Super Digital Iridology Camera has arrived and I am taking eye photos!!! This has been a wonderful purchasing experience and you do a great job at Joyful Living Services. It's been an absolute pleasure working with you. The camera is great (I did adjust the settings a bit as - in my photos, the details in the sclera are very important) but I've done 35mm photography with a Canon for many years so it was no problem and everything is great!!! Blessings from here – Amy G

My name is Mara Bramante. I live in Italy. I would like to thank both Brenda and Chris for all the assistance they gave me before and after receiving my [SD8004 Super Digital Iridology Camera](#). The camera has been my best purchase yet. It has facilitated my work as an iridologist. It takes such clear precise pictures, and above all, it is really easy to use. I have recommended the same SD8004 to 3 Italian colleagues, and I am proud to say that they are just as satisfied with the camera as I am, and they too, find working with it very simple and pleasant. This makes me very happy. While ordering the cameras, we were afraid to encounter problems with the shipment, but amazingly the delivery dates were respected and all four cameras arrived safely. What touched me is the way Brenda and Chris made sure to follow up on our orders very closely, and were always (and still are) available to answer any question or doubt. I will highly keep recommending it. Once again ... thank You Joyful Living!

"I have purchased the SD8004 Super Digital Iridology Camera and would like to share something for you Brenda. I live in Botswana. I not only had no problems with receiving my camera, but would like to thank Brenda and Chris very much for their total support and help for everything. I truly love the camera, as I have found it sturdy, convenient and quite easy to use. It has made a big difference in iris photo taking of my clients and patients. Not only is there no distraction of lights in the iris, but focusing is a pleasure, not only for myself but for my clients as well. I do not have to take long to take their pictures, so in turn there is no stress on their eyes. The instructions are easy to follow. I recommend this camera for all those Iridologists that want to make their consultations easy and comforting to their patients. Brenda, I thank you so much for your time in answering all my questions prior and after buying your camera. With email access, all this was possible & hassle free. Thank you Brenda and Chris for all your support. It has helped my practice tremendously." Mrs. Allie

This is Denise Coyle, and I am a nutritional therapist living and working in Ireland. I have always been fascinated by iridology, so when I found the course offered by JLS I jumped at the chance to study. It is proving to be an invaluable diagnostic tool in conjunction with my nutritional therapy training. However, I found that as a beginner, it was taking me lots of time to study someone's iris, which meant that I had to hold a magnifying glass and flashlight for lengthy periods in their personal spaces, something that I myself would not appreciate. I started looking at iridology cameras, and comparing photos taken by all different types from all different price ranges. There was absolutely none that compared to the quality and clarity of the SD8004. Yes, it is on the more expensive side, but I believe it is well worth it. My Irish family has been kind enough to let me take photos of their irises for the practice. Previously, I'd looked at their irises with a magnifier and light. But when I got the camera and saw the images produced, I was amazed and appalled at all that I had missed! There were so many more subtle markings and color variations that I would not have documented without the SD8004. I would not hesitate to recommend this camera to anyone who is serious about practicing iridology. Thanks especially to Brenda and Chris for working so closely with me to insure I got exactly what I wanted, and in a timely manner. Chris emailed to tell me the camera would be ready to use straight out of the box, and he wasn't kidding! He even included instructions on battery changing. If you decide to go with this camera, I would also highly recommend the Iridology Station 5.1 software - it's the perfect complement for analysis and organization!

Herbs and Herbal Remedies

Herbalism is the oldest method of treating ailments known to mankind. Extensive knowledge of herbs and their remedial properties has been built up over several thousand years. Since the dawn of mankind, humans have explored nature and used the knowledge gained to provide themselves with food, shelter and relief from various illnesses. Quite often the same herb used to provide food also had medicinal purposes. And then by people travelling down through the ages, knowledge about herbs was continually exchanged and developed and people learned through experience which herbs were appropriate to treat each particular ailment.

This 88 page eBook covers detailed descriptions of all major vitamins and minerals with the lists of main sources of each. In addition there are 65 everyday herbs, fruits and vegetables with their photos, names in English and Latin, detailed descriptions and remedial properties. With over 50 recipes for some of everyday ailments this book will be welcomed addition to anybody's home library.

Price:US\$ 39.95

To order contact Brenda at Joyful Living Services at iridology@netzero.net or by phone at 530-878-1119

Iridology Station 5.1

Iris Supplies
Leading the way in Iridology Technology

IRIDOLOGY STATION 5.1 is an Iridology analysis and reporting software. Allowing the user to manage their Iridology images, overlay Iridology charts, record client details, scan the iris for color intensity and create reports ready for printing.

View images in iBrowser

After taking your images open Iridology Station 5.1 to view them in iBrowser. Use the tools to manage your images and view them with the zoom options. Finally when

you're ready, transfer the images you want to work with into iStudio for analysis.

New Zoom Tool

Zoom parts of the iris without magnifying the whole image. Can be used in iBrowser and iStudio.

Do your analysis in iStudio

Use iStudio to analysis iris images, chart overlay, create client records and print reports.

Collarette Tracing - Unique Feature

Collarette Tracing is a feature only unique to Iridology Station 5.1. Instead of being restricted to mark out a chart using a circular ring for the collarette like other Iridology software, there is also the option to trace it.

This allows for far more accurate Iridology chart overlaying,

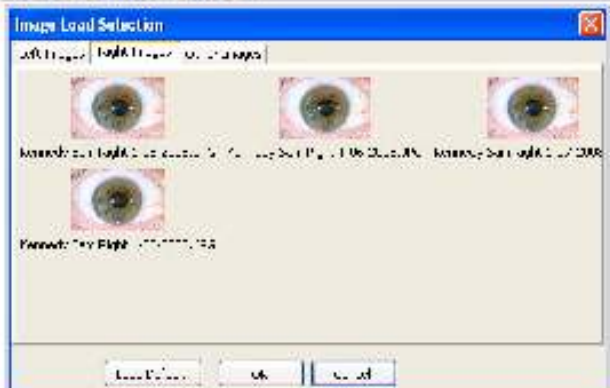

helping the user to do better Iridology. This also improves scanning result accuracy.

Keep Client Records

Keep detailed records of your clients.

Client Photo Album

Assign your images to your client records and build a photo album of left and right images from recent and previous visits.

Iris Color Intensity - Improved Graph

Scan your irises and display the color intensity in a graph. For Iridology Station 5.1 the scanning results & graphing display have been updated to be easier to understand, the presentation is improved and graphs can now be maximized to full screen.

Price: \$500.00

ZIVA360 Assessment Tool

What's Your Body Trying to Tell You?

With so many nutritional supplements on the market today, it is hard to differentiate between what is beneficial and what is just plain "hype". From week to week, you can find ads and breaking news on weight loss cures to secret anti-aging formulas. In addition, each person has specific nutritional needs based on genetic predispositions, dietary choices, and environmental exposures. With all of these factors taken into consideration, how can we truly know which combination of supplementation can best help us reach our optimal health standards?

ZIVA360 is proud to present the Z3BIO that uses two types of biofeedback - Heart Rate Variability and Galvanic Skin Response - to assess your clients' body systems balance.

Biofeedback is technology that is accepted and utilized in many medical practices: from neurological studies of the brain to cardiology studies of the heart; from respiratory studies of the lungs to muscular reactivity studies. You now have that technology available to help determine which nutritional supplements best match your physiology support needs!

By purchasing Ziva 360, you are opening the means to quickly and accurately identify optimal nutritional support needs in a non-invasive manner. By first identifying the stressed areas of concern, the system will then pinpoint and match which specific nutrients are most supportive. Our system will even match and list the product line within your place of business! It will scan as many products lines as you wish. Why waste time guessing which supplements to use? By using the Ziva360 your body's responses will choose the correct supplements for your specific needs. Once a report has been generated, it is sent to a designated email address as an easy-to-understand PDF file that can be printed, saved, or forwarded. Go to <http://www.ziva360.com/#!samples> to see the sample reports.

Ziva 360 currently has 3 devices, Health and Nutrition, Spa and Salon and Sports and Fitness. They will soon be coming out with a device to test animals.

IRIDOLOGY INSTRUCTIONAL TOOLS FOR TEACHING OR LEARNING

	<p>You can learn a lot about a person's genetic strengths and deficiencies with just a quick glance at the overall iris pattern. In this beautiful CD you will learn about genetic constitutions through the iris of the eye. Ellen Tart-Jensen, Ph.D., D.Sc. illustrates each body constitution with beautiful color iris photographs. She gives complete explanations about each one and what that pattern would mean to the health of a person. She then goes into great detail about what to do for that person with proper nutrition, herbs, vitamins, and exercise. This beautiful presentation consists of 107 slides in a wonderful PowerPoint program. CD includes software to view the slide show.</p>	<p>Set 1: Iris Constitutions</p>	<p>55.00</p>
	<p>There are many details to the features observed in the iris. Major iris signs and markings include pigmentations, lacunae, crypts, defect signs, radial furrows, contraction furrows, cholesterol ring or corneal opacity and many more. Learn what these markings look like and what they mean to the health of the person. This beautiful presentation consists of 147 slides in a wonderful PowerPoint program. CD includes software to view the slide show.</p>	<p>Set 2: Iris Signs</p>	<p>55.00</p>
	<p>The iris of the eye provides various shades of color in the form of pigmentation that can be utilized by the Iridologist for observation and analysis. In this informative CD, you will learn the colors of pigments that are present in irises and what the colors mean to the health of a person. Ellen Tart-Jensen, Ph.D., D.Sc. explains the meaning of each color of iris pigmentation and how the colors relate to the various organs of the body. She also explains the meanings of hypertrophic and hypotrophic heterochromias. Beautiful iris photographs illustrate the specific colors of iris pigments described. This beautiful presentation consists of 42 slides (37 of which are full color, high resolution iris images) in a wonderful PowerPoint program. CD includes software to view the slide show.</p>	<p>Set 3: Iris Pigments</p>	<p>40.00</p>
	<p>Here are many different types of lacunae that can be found in the iris of the eye. In this detailed CD, you will see descriptive drawings of the lacuna types as well as vivid photographs. Arrows pointing to the lacuna types will help you locate them in the iris of the eye and the meaning of the lacuna types is written clearly under each picture. Deepen your knowledge in iridology with this presentation that includes 50 slides in a wonderful PowerPoint program. All the software necessary to view the slide show is included.</p>	<p>Set 4: Lacuna Types</p>	<p>45.00</p>

Reiki Treatments Available

I am a Certified Reiki Master Healer and Teacher. I am now offering 1 hour Reiki treatments for \$50. If you are interested in a treatment please call me at one of the telephone numbers above to schedule a time. It normally takes about an hour and 15 minutes. Reiki can be performed on animals as well. Let me know if you are interested. Brenda Generali, Joyful Living Services

What is Reiki?

Reiki is a Japanese technique for stress reduction and relaxation that also promotes healing. It is administered by "laying on hands" and is based on the idea that an unseen "life force energy" flows through us and is what causes us to be alive. If one's "life force energy" is low, then we are more likely to get sick or feel stress, and if it is high, we are more capable of being happy and healthy.

The word Reiki is made of two Japanese words - Rei which means "God's Wisdom or the Higher Power" and Ki which is "life force energy". So Reiki is actually "spiritually guided life force energy."

A treatment feels like a wonderful glowing radiance that flows through and around you. Reiki treats the whole person including body, emotions, mind and spirit creating many beneficial effects that include relaxation and feelings of peace, security and wellbeing. Many have reported miraculous results.

Reiki is a simple, natural and safe method of spiritual healing and self-improvement that everyone can use. It has been effective in helping virtually every known illness and malady and always creates a beneficial effect. It also works in conjunction with all other medical or therapeutic techniques to relieve side effects and promote recovery.

The Compass

Your guide to what your body needs...

Only \$39.95 / month
and \$399 setup fee

I'm happy to announce that we are now carrying the Compass.

In our ongoing pursuit of good health we have utilized many tools to evaluate our particular body needs. As your Natural health Consultant I have studied and used various questionnaires, testing and procedures to help me make the best choices for you. I have recently come across a tool that has impressed me with its accuracy, and affordability. Using cutting edge technology and ancient wisdom, a device has been created to help pinpoint what exact supplements your body is calling for to help it bring balance and harmony to all the body systems.

Introducing the Compass...

The Compass measures 76 bio-markers in your body. It records the *bio-frequency* of each marker for what is out of range or out of balance. An image is then created to help you visualize the extent of the imbalances out of normal range. When the Compass registers the imbalance, it then begins a scan of all of the 500+ Nature's Sunshine products to look for supplements that will match and balance your body's frequency. First, the most precise match is found that brings the most bio-markers into balance. Then additional formulas are added on top of that until all bio-markers are brought into balance.

After calculating your personalized health program, the Compass then creates a report showing the bio-markers affected, as well as a description on each supplement that has been chosen. On an average 3-5 supplements are chosen to balance your system. Your Consultant can help guide you in your decisions as to which to use.

Health is all about balance. With the natural approach to healing we learn to look at all the things in our lifestyle and environment that has brought us out of balance. These are the roots of disease, which overwhelm the body's ability to stay healthy and maintain balance. We then use different tools such as changing our diet, exercise, stress control and supplements to help to restore balance and harmony to our bodies. This provides the body with the tools necessary to rebuild health. I am very excited about the possibilities that the Compass will provide to add to our ability to gain better health!

The Integrated Iridology Textbook

The most comprehensive Iridology reference since 1982!
Bronze medal winner Independent Publishers Award 2009

The Integrated Iridology Textbook

Written by Toni Miller is based on nearly thirty years of clinical practice and more than 25 years continuous teaching experience. Written, designed and published in Australia featuring:

- 344 full colour pages
- 500 high quality iris photos
- 250 graphics
- New charts and tables
- 22 chapters
- Information in line with modern research
- Descriptions of physical, mental and emotional significance of eye signs

Peer reviews:

"Congratulations for the creation and publishing of your textbook. You have provided the field of iridology with a valuable resource for years to come. Good job. What a blessing!"

Dr David J. Pesek Ph.D. President International College of Iridology, USA

"I thoroughly recommend this text to all students and practitioners of Iridology".

Ellen Tart-Jensen Ph.D., B.Sc., CCII Past president of the IPA

"I commend this text to all those interested in the study of Iridology and congratulate Toni on her achievement in producing such an outstanding resource".

Denis Stewart. BA. ND. D.B.M. Australia's leading Herbalist.

"The world has long needed a precise and practical Iridology reference. Toni Miller's book fulfils this need. It goes beyond introductory concepts and shows that accurate iris diagnosis is much more than just a sum of its markings"

Kitty Champion ND Homeopath England

Ideal for students, teachers and practitioners

Soft cover \$230USD* Collector's edition \$375USD***

** Limited hard cover version in protective sleeve. (Individually numbered 1 – 500 only) Signed by the author
*Includes the shipping! (For orders placed before 1st July 2009)

Iridology Equipment

	<p>Updated with Current Terminology by: Ellen Tart-Jensen. Now available on CD-ROM. An educational aid in the study of iris signs and their interpretation. Dr. Bernard Jensen's longtime favorite Flash Card Set in a PowerPoint presentation. This CD contains 38 full-color, high resolution iris photographs. Each frame illustrates an iris sign, its observation and indication. The CD includes all necessary software to view the slide show.</p>	<p>Iridology Flash Card CD-ROM – 38 Slides – English or Spanish - Updated</p>	<p>28.00</p>
	<p>This boxed set of 41 cards will be a wonderful resource for all student and iridology practitioners to improve understanding and assist in explaining to their clients how to be the best they can be. The cards contain full colour graphics of twenty constitutions, each with concise descriptions of variations in colour, structure and accumulation signs that identify each person's unique constitutional profile. In addition, they include a.k.a.'s and identify each type's primary nurture points and life lessons. There are 14 cards that explain the meaning of position, quality and shape of the collarette (Autonomic Nerve Wreath). These cards describe the character of each type and offer herbal suggestions to maintain optimal wellbeing. In addition, each set contains a bonus folding "Integrated Iridology"® chart for reference. User friendly terminology assists users to understand the constitution as well as opening meaningful dialogue with clients. In summary, the cards help discover the inherent family health issues, the primary nurture point, the life lesson, the personality and the supplements that assist in maintaining optimal health.</p>	<p>Constitutional Signs – Integrated Iridology Flash Cards by Toni Miller</p>	<p>49.50</p>

Adrenal Support Don't Let Stress Drain Your Adrenals

The adrenal glands are primarily responsible for offsetting the effects of emotional, mental and physical stress on the body. Modern dietary habits and stressful lifestyles have a deleterious effect on the capabilities of the adrenal glands. Your level of energy, muscular strength, blood sugar levels and ability to respond to environmental stressors are all affected by adrenal function.

NSP Adrenal Support is formulated with BSE-free adrenal glandular substance from New Zealand plus vitamins and herbs to help maintain proper adrenal function.

BENEFITS

- Helps maintain normal adrenal function.
- Supports the body's ability to regulate stress.
- Supports a healthy biological terrain.

HOW IT WORKS

Certain hormones in the body—called stress hormones—prepare the body to deal with stressful situations by increasing the heart rate and the force of contraction and blood flow to the heart, liver, skeletal and adipose tissue. These stress hormones are produced and regulated by the adrenal glands. They also dilate airways to the lungs and increase blood levels of glucose and fatty acids.

The adrenal hormones and their functions are linked to virtually all of the body systems. Thus, many physiological processes and bodily functions, including cardiovascular health, sex drive, pH balance, skin conditions, energy levels, mood and overall psychological outlook often correlate to adrenal gland function.

Adrenal Support is specially formulated to nourish the adrenal glands and to promote glandular secretion.

NSP ADVANTAGE

This formula contains a synergistic blend of vitamins, minerals, enzymes and adaptogenic herbs to support and strengthen the adrenal glands. Adrenal Support combines the most bioavailable and biological-terrain-friendly forms of these vital nutrients.

These statements have not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, cure or prevent any disease.

SCIENTIFIC SUPPORT

Scientific evidence suggests that the ingredients in Adrenal Support may offer help in supporting adrenal functions and maintaining health. The B vitamins, for example, support most of the biochemical processes in the body, notably energy production. Vitamins B1 and B2 are necessary for nervous-emotional stress^{1,2} and the cardiovascular system.³

INGREDIENTS

Adrenal Support contains bovine adrenal glandular substance, vitamins B1, B2, B6, pantothenic acid and vitamin C, plus zinc, potassium, magnesium, protease, borage (*Borago officinalis*) oil powder, licorice root (*Glycyrrhiza glabra*) and schizandra fruit.

RECOMMENDED USE

Take 1 capsule twice daily with food or as directed by your health care practitioner.

COMPLEMENTARY PRODUCTS

- Nutritional: Liquid B12 Complete, Cellular Energy, Magnesium Complex.
- Homeopathic: Fatigue/Exhaustion.
- Essential Oils: Lemon BIO, Pink Grapefruit BIO, Red Mandarin.

New Iridology Cameras & Irisscopes

Joyful Living Services, in partnership with Allison Imaging, is excited to announce that we now offer both a **15.1MP** and an **18.1MP C Digital Iridology Camera** system that has the capability of extremely high resolution and uncompromising quality at affordable prices.

Our Iridology Systems are based on either the 15MP Canon T1i E or the 18MP Canon T2i EF-S. Both Iridology systems use a highly rated, crystal clear 105mm macro lens for unparalleled performance and clarity.

Both cameras feature a newly designed oversized Canon CMOS sensor specifically optimized for low noise and high saturation, giving you the best image quality available. They also come with the DIGIC 4 Image Processor, a 3.0-inch Clear View LCD with anti-reflective and scratch-resistant coating. You'll have uncompromised Digital performance with power and flexibility in the palm of your hands.

We use a highly regarded macro lens along with two flash units for a consistently better flash than from any fiber optic unit. This allows for greater depth of field and consistently clearer pictures. The flashes are still within the pupil so no part of the eye is obscured.

SAVE \$1,000

Software for iridology reporting is the Iridology Station 5.1 and is sold separately for \$500.

The portable fully adjustable custom camera stand is made of heavy duty plate aluminum with a beautiful "Brite Dipped" face mount rather than the plastic found in other systems. This gives you unequaled beauty, strength, stability and longevity. It is easy to set up on any table, at any location for ultimate portability and comfort.

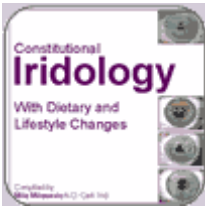

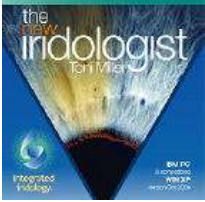

The lighting system gives you perfectly illuminated shots every time without flash spots on the iris. The twin head focus light is embedded in the flash ring giving you ease in focusing while being easy on the client.

The camera comes with all the drivers, manuals and instructions making it easy to take stunning pictures that will impress your clients and offer excellent clinical advantages over any other camera in this price range. We recommend the Iridology Station 5.1 software that will automatically scan the iris and compile a report that you can share with your clients making the start of your business a breeze. Camera comes with a 1-year manufactures warranty.

Because of the power of our unique Iridology systems, you can greatly magnify the size of the image on your computer screen. This gives you the option to zoom in and observe minute nuances that are simply unavailable with other cameras. Scroll down to the end of this flier to see examples of the quality you can add to your practice.

Iridology Software

	<p>The worlds' leading Iridology software takes you to the next level! Dual-mode ~ <i>iStudio</i> and <i>iBrowser</i>! Iridology Station 5.1 now brings together two powerful programs into one dual-mode instrument! <i>iBrowser</i> ~ Manage and view all your digital images. Browse, organize and transfer your digital images into <i>iStudio</i> with a single click. <i>iStudio</i> ~ The most up-to-date collection of powerful tools in one Iridology Studio. Patient database, Collarette maps, Grading systems, Pupil scanning, Report generation, Emailing reports, Histogram display, "One-click" Resource files, Digital camera integration, and much more. Software is stand-alone and can be used with 35mm cameras as a 2nd step process. Contact Brenda for more information.</p>	<p>Iridology Station 5.1</p>	<p>500.00</p>
	<p>We are now carrying Milo Milosevic's software. This is a compilation of the constitutions from Deck, Angerer and American constitutions. It is written in such a way as to make it easily patient compliant & the analysis can be used even as a handout sheet. The constitutions are divided into blue, brown & mixed with dietary & lifestyle guidelines. The Iridology software CD also contains many photographs of irides from Milo's clinical cases, also other pupil and iris signs as well.</p>	<p>Constitutional Iridology Software</p>	<p>149.00</p>
	<p>It is based on the teachings of Bernard Jensen, and European masters including Josef Deck, Joseph Angerer and Theodor Kreige. This software is an extensive resource unparalleled in the industry featuring detailed information, beautiful graphics and over 250 iris photographs on Basic iris signs, 18 European Constitutions, the Iris Structures, Pupil Signs, Sclera Signs, Psychological indicators, and the Collarette (A.N.W.) It is ideal for learning or for explaining various signs in the iris to your clients. The information in this software package is ideal for producing iridology reports. This was the first Iridology data program in the world. Released in 1998, this is the third revision and still remains the best value for money iridology data programs available in the world. This is a superb work ideal for producing reports.</p>	<p>The New Iridologist Software</p>	<p>495.00</p>

Iridology Cameras-Pre-Owned

The following pre-owned cameras are available. Please contact the owner directly. Software is not transferable. See our web page at <http://www.joyfullivingservices.com/usediridologycameras.html> for pictures and more information.

- **Pre-Owned Pixera Capture Cam DV2002U, \$500 plus shipping.** This camera has only been used a couple of times. It is a complete turn key system which utilizes the patented Fiber Optic Lighting System (180,000 optical fibers) designed for close-up macro enlargement of the iris of the eye. The photographs can be immediately viewed on a personal computer, laptop or video TV. It has very high resolution, up to 1.2 million pixels, uses Windows '95, '98 or 2000 and a minimum of 32 megs of ram. It comes with telescoping legs and supporting platform, chin and headrest for stabilization and comfort, two fiber optical lighting assemblies, a lockable travel case and the original Pixera instruction manual. It is in excellent condition. Contact Sylvia Montroy at 315-393-3226 or by e-mail at smontroy8888@localnet.com
- **Pre-Owned Jensen Pentax Z10 35mm Iridology Camera with Chin and Forehead Rest and Pelican Carrying Case, \$1,800.** Jensen Iridology Camera is in perfect condition. It includes a Chin and Forehead Rest. Comes with a gray Pelican 1550K carrying case for the camera and another carrying case for the stand. Contact Dewey Sparger at 702-524-2842 or by e-mail to d.sparger@yahoo.com.

Iridology Cameras-Pre-Owned - Continued

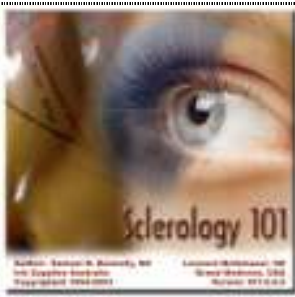

The following pre-owned cameras are available. Please contact the owner directly. Software is not transferable.

- **Pre-Owned BodyGem RMR Tester, like new, Iridology CADI USA Camera with Hair & Skin Lens, All In One Package for retail stores or office, Point of sale package # 3, Eye Charts, etc.** I'm going to sell my herbal equipment. I closed my office down. I'm going to sell online. Contact Violet at violet@pricelessdesigns4u.com or V4899@ymail.com or by phone at 828.667.0202.
- **Pre-Owned CADI 3.1 MP Digital Iriscope, \$600** New CADI 3.1 sells for \$950. This CADI has barely been used. Contact Jean Squires at squiresjd@charter.net for information.
- **Pre-Owned Pixera Capture Cam, DV2000, \$4,000 or Best Offer.** This camera system was originally purchased in 1999 with a total value of \$5,500 which included the camera, software, carrying case, videos, and 2 instructional courses. It is a complete turn key system which utilizes the patented Fiber Optic Lighting System (180,000 optical fibers) designed for close-up macro enlargement of the iris of the eye. The photographs can be immediately viewed on a personal computer, laptop or video TV. It has very high resolution, up to 1.2 million pixels. It comes with telescoping legs and supporting platform, chin and headrest for stabilization and comfort, and two fiber optical lighting assemblies. It is in excellent condition. Contact Don Caron at 509-489-3129 or dcaron@doncaron.com.
- **Pre-Owned NT SYSD4001 Digital Iriscope, \$3,200.** This unit was purchased in 1999 and was used for only 1-1/2 years and has been in storage since 2001. Includes: Panasonic Super-Dynamic wv-GP454 camera, Stand with chin rest providing precision movement and a forehead support, Twin solid state lights mounted on stand, fully adjustable for effective positioning, Iridology flash card set, and Hookups for video/computer. Contact Jim at 1-757-644-3381 or email jim@synchronicity.org with IRIDOLOGY in the subject line.
- **Pre-Owned Canon T50 35mm Camera, \$1,400.** The camera has "programmed automation; automatic film transport". The lens is a Canon FD 35mm 1:1.8. The camera is made in Japan and has chin and forehead rests. It can be adjusted horizontally and vertically. It was purchased in 1988-1989 and is in good condition. It uses 35mm film and comes complete with a 4 painted leg stand. Contact George at 520-746-4137.
- **Pre-Owned Digital Iriscope, Computer and Printer, \$4,500.** Computer includes Windows 98, 64MB ram, 10 gigs, 3D graphics card, and 333-megahertz processor. Software includes IriSearch Pro, Brown Irides, NaturBase, The Iridologist, and Constitutional Classification. Printer includes HP desk 930C printer, prints 1,200 BPI, printer was only used 3 times. Contact Shasta Palmer at 970-241-7630.
- **Pre-Owned Jensen Iriscope, Model 111S, Asking price: \$2,200 or best offer.** This is a Minolta 35mm with all accessories in perfect condition. Please contact Jeffrey at jclayreed@hotmail.com or at 941-671-1783.

Sclerology Products

	<p>Sclerology is an absolute “must-have” for Iridologists. The immediate and current data in the whites of the eyes effectively doubles, enhances, and verifies what can be seen in the irises. This important contribution to Eyology science, now referred to fondly as “the Manual” is a textbook for the serious student of Sclerology in particular and Eyology science in general. Professionally acclaimed (Jensen, Miles, Pesek, etc.), it comes fully and beautifully illustrated with color images (from digital and film photos), maps, charts, clear graphics, practice aides, plus herb and supplement protocols. Helps make the most of client evaluations. Perfect bound, 8½ x 11 format, 190 pages. Authored by Eyology researcher Leonard Mehlmauer, with computer art and graphics by Nenita Sarmiento, this book is clearly the industry leader and the basic text in the field. Available in English, Spanish and Italian.</p>	<p>A New View of an Ancient Art Sclerology Manual</p> <p>Manual available in English Spanish, and Italian</p> <p style="text-align: right;">75.00</p>
	<p>The map layout is presented in the natural almond-shaped appearance of the human sclera for easier reading and transposition. Result: an accurate, beautiful, and altogether fun-to-use map! The larger format is 11” x 17”, fully 10 mil laminated, and it is suitable for desk or wall mounting. The smaller version of our lovely pastel Sclerology map fits better on your desk, although (caution!) your close-vision eyesight had better be good because it is a bit more difficult to read than the more popular 11” x 17” version.</p>	<p>Large / Small Sclerology Map</p> <p>Large = 11x17 Small = 8½ x 11</p> <p style="text-align: right;">Lge=17 Sm = 12</p>
	<p>This is a handy quick-reference guide to some 82 signs and markings in the sclera and conjunctiva. Each sign is shown with its own descriptive paragraph— elaborated (in some cases) beyond information found in the big Sclerology manual. Ten full pages (5 pgs 2-sided) of easy-to-use data for really fast ID of those interesting red lines and other markings. This guide includes some of the very latest discoveries. The guide comes as five 10-mil laminated ring-bound 8½” x 11” quality card stock double-sided pages, 2-3 columns per side, in color.</p>	<p>Sclerology Signs and Markings Guide</p> <p style="text-align: right;">30.00</p>
	<p>This wall chart has 26 of the most important Sclera signs, including markers not found in the Sclerology manual! Plastic coated on quality paper to prevent wrinkling and yet maintain resilience for years of easy viewing, it's a full 24” by 36”. This beauty will proudly proclaim your familiarity with Sclerology. Graphically impress everyone entering your office—patients and professionals alike—with your knowledge of this amazing and important health evaluation science. And it's a signs and markings good reference tool, too! The now-legendary full-pastel-colored Sclerology map is centered impressively in the middle of this great wall chart. All signs are carefully photographed, diagrammed, and described.</p>	<p>Sclerology Wall Chart</p> <p style="text-align: right;">40.00</p>

Sclerology Imaging Software

	<p>Recently finished after much study and interaction with programmers, this software is unique—in fact, it's the only software of its kind in the world. Included: (1) an adjustable rotateable sclerology grid that pulls down and covers your sclera quadrant photo images for precise location of those lines and markings; (2) a changeable listing of recommended supplements (vitamins, minerals, herbs) for specific conditions, and (3) forms to help you organize client data—and more.</p>	<p>Sclerology Basics Course</p> <p>(See attached notice on page 33)</p> <p>799.00</p>
---	--	--

Physical Iridology Products

	<p>Grand medicine's single-piece map of physical Iridology is an exquisitely colored chart locating the most often viewed organs and body parts. A stunning example of the computer art and graphics of Nenita Sarmiento, and based on GM's many years of clinical experience, research, and the study of all available maps in the field, it is considered by many to be the most advanced presentation of physical Iridology topography in the science—and easily the most beautiful! One side, 10 mil heavy-laminated.</p>	<p>Large / Small Map of Physical Iridology</p> <p>Large = 11x17 Small = 8½ x 11</p> <p>Lge=17 Sm = 12</p>
	<p>This lovely book has it all: easy-flowing text, full-color example photos, and clear illustrations to assure your understanding of each marker. And all the most important up-to-date Physical Iridology info including the new terminology. It's student friendly, teacher friendly, fun and easy learning of what's real in our science. Includes: A&P, History, Topography, Ideas and Concepts, Constitutional Colors, Specific Signs and Markings, Shading, Density, Dispositions, The Circular Landmarks, NutriZone Signs, and Practice.</p>	<p>Physical Iridology – A Textbook for Students and Teachers</p> <p>40.00</p>
	<p>The "map book" includes a series of carefully detailed maps of <u>every significant gross body area, system and organ</u> in a sophisticated 50-page full-color book. Never has the body been located in the eyes with such extravagance, precision and detail. Many original features and concepts appear in this work—including the full range within which any specific organ marking may be found (beyond the normal organ location). Included are of transparencies of the 4 sclera Quadrants (basically, the full Sclerology Map in transparency), Personality Iridology, and the systems of Physical Iridology.</p>	<p>Map Book of Physical Iridology</p> <p>65.00</p>
	<p>This chart is part of a series describing the colors in the irises and scleras as they illustrate various qualities of tendency to pathology (and actually developed pathology) in the eyes. The colors in this first chart are vibrant and as close as we can make them to what is seen in the irises as spots, patches and areas of pigment color. Each color wedge comes with a description of its meaning in the iris. Size: 8½" x 11".</p>	<p>"Colors in the Iris" Chart</p> <p>12.00</p>

If you are interested in Sclerology, This course is for you!

Your **Sclerology BASICS** Course on DVD is here!

No airfare!

No hotel costs!

No food expenses!

Learn at home—at your own rate!

Kit Materials:

- o Grand Medicine Sclerology BASICS Course on 7 DVDs
- o Grand Medicine Sclerology BASICS Handbook
- o Grand Medicine SCLEROLOGY Map

Source material: video presentation at Hunter College, New York City, + San Diego classroom & studio; live course offerings in many countries over many years; clinic work with 1000s of patients since 1972

Physical Iridology emphasizes **genetics**, while Sclerology shows us **current health events**. Learning Sclerology, Iridologists use it far more than Iridology. With Sclerology ("the other half of the equation"), you're miles ahead of those who know only Physical Iridology. Your **Sclerology BASICS Course** is equivalent to 12 weeks of college classroom instruction. With the images up on your computer or TV screen, take all the time you need to understand how markings appear, what each means, and when & where to help your client.

To complete your training in Sclerology, GranMed is preparing the **Sclerology ADVANCED DVD Course**. Meanwhile, live classes remain available once yearly in the USA. Email us at gm@grandmedicine.com or click www.eyology.com for latest class scheduling. Current phone (San Diego, USA) is

619-240-3711.

Eyology Products

	<p>Highly praised, well-received, the <i>GranMed Eyology Lessons</i> CD includes <i>the first 50 lessons</i>—upgraded, updated, edited and enhanced since their first appearance on the Net. Yes, there is typically more Sclerology than Iridology, but all three basic Eyology sciences (Physical Iridology, Personality Iridology, and Sclerology) are eventually completely represented. Many full-color hi-res photos are shown, clearly diagrammed, described and illustrated. The result: a powerful display of case histories, specific signs in all three sciences, ID of parasites, neoplasm and drug markers, word files on treatment and Rx, the Seven Sciences of Iridology, disease process considerations, practice tips, maps, charts and grids, etc. Used by Eyology teachers, instructors and students in many countries, the lessons CD provide hours of quality entertainment and instruction, from basic thru advanced.</p>	<p style="text-align: center;">Eyology Lessons on CD</p> <p style="text-align: right;">45.00</p>
	<p>On this CD you get: Lab Terms and Abbreviations, Three full GM Case Histories, Each sclera Quadrant fully diagrammed and labeled, Both irises labeled according to Iris-1 (Physical Iridology), Full description of Iris-2 (Personality Iridology) Structure (in completed Lab Study), Full Lab description (in Lab language) of each iris and sclera Quadrant—using authentic GM Lab forms, Actual Intake, Evaluation + Diet & Lifestyle Rx by Grand Medicine technicians (complete Lab Study), Blank Lab Study page completely outlined and adaptable to your lab study circumstance. See how it's done by top professionals. Every effort has been made to present the essentials, the most important aspects of the case.</p>	<p style="text-align: center;">Eyology Case Histories on CD</p> <p style="text-align: right;">50.00</p>

Personality Iridology Products

	<p>A hybrid map developed after study and research on Denny Johnson's original Rayid work, this chart adds the previously missing 14 Areas. It's the perfect aide in helping locate the various 60 Personality Iridology Areas. This two-sided map includes (1) a brief history of the science, (2) definitions, (3) a full paragraph describing the four basic Personality Iridology Structures, and (4) photos illustrating these Iris-2 Structures. Two-sided, 8½ x 11, heavy 10-mil laminated, color photos on one side, with printed data on the four basic types.</p>	<p style="text-align: center;">Personality Iridology Map</p> <p style="text-align: right;">12.00</p>
---	---	---

Pupil Border Dynamics

	<p>This amazing map expands significantly on the previous work of Deck, Angerer, and others. Seven "Odd" shapes, six "Ellipses", and eight "Flats" cover the full range of whole shapes and sectoral flattening. New information on organs, systems, pathological conditions, tendencies and disorders. Bonus: Included are associated negative-reactive emotions, toxics, and parasite groups. Heavy-laminated in 10-mil plastic, 8½ x 11" full color, quality card stock, double-sided.</p>	<p style="text-align: center;">Atlas of Pupil Border Dynamics</p> <p style="text-align: right;">12.00</p>

Course, Newsletter & Web Site Reviews, and Service Recommendations

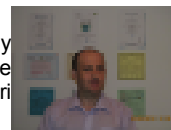

Your website is responsible for MANY [hiatal hernia](#) referrals for me, so thank you! I even had one come from TUCSON, ARIZONA to stay by my office in NEW YORK for a week with great success. I get about one referral per month from you and they have worked out GREAT so thank you again. TWO more referrals from [Joyful Living Services](#) last week (a husband and wife, both with hiatal hernias). The wife was perfect after one visit and the husband is more chronic. Thank you! More people to help.

I am utilizing a new product/technology called ASEA in my office at the hospital with results that used to be unattainable, and are now commonplace. It is changing healthcare, through DC's, MD's, ND's, etc. This hospital is embracing it instead of tossing ME and IT out of here. Click on this link for more information and see more information in this newsletter: [ASEA](#). Dr. Foster Malmel, dchfrm@aol.com, 914-403-4697

Brenda's course for Certified Herbal Counseling has taught me so much. I truly enjoy all of what Brenda has to offer, and plan on taking more courses as well - Amanda Bears, Fertility Advocate, E-mail: myeggandme@amandabears.com, Web: www.myfertilityawareness.com. To download the course information, click here: [Certified Herbal Counselor Course](#).

I received the [Iridology Course Series](#). Thank you very much! The course is very well structured. I strongly recommend this training course to both those who want to know as much as possible about iridology and to those who are already practicing it. We find answers to many of our questions in this course. Congratulations! Satmari Daniel, Romania

I very much enjoyed the [Certified Health and Nutrition Counselor Course](#). I am grateful to you for all the time you took to respond to my e-mails and send me materials to read. You have a high degree of judgment and integrity. I am also appreciative of your complimentary words on my homework. Leigh Renee Vecchio, A.A., B.A., CHNC

Hi Brenda; My SD8004 Super Digital Iridology Camera has arrived and I am taking eye photos!!! This has been a wonderful purchasing experience and you do a great job at Joyful Living Services. It's been an absolute pleasure working with you. The camera is great (I did adjust the settings a bit as - in my photos, the details in the sclera are very important) but I've done 35mm photography with a Canon for many years so it was no problem and everything is great!!! Blessings from here - Amy G

"Yesterday I was working through your Beginning Iridology Course. I felt bad when I realized that we got diplomas from a doctor that didn't teach us properly. For example, he didn't teach us any information from the upper part of the iris where all the brain areas are. We had to do our own research as tasks and write one or two pages about it. That didn't help us at all because the information we got is not relevant to iridology. With the amount of money we had to pay him, we would have been able to pay our studies with you, as well as a good iridology camera. He doesn't even have his own iridology camera or any of the books we bought so far. We had to do 100 case studies by going out to people and making studies of their eyes. We had to start with this at the beginning of our course and we had no explanation on what to look for or how to draw the eye. I can remember when I looked into one of the ladies' eyes that I told her she had the most beautiful and interesting eyes. Later in the course I learned that it is so "interesting" because she has a very weak constitution. We had to fill in an empty diagram of the iridology chart and give it to the doctor we did our study with. I don't think he ever looked at it. It is difficult to convince people of iridology if they can see you don't know how to read their eyes. How can you know the case study that you do is correct, if your mentor doesn't know exactly what that eye looks like? Before we enrolled for your course, we were wondering if the same thing will happen. We were really happy to see the case studies are supplied as well as proper forms that need to be filled in about each eye. We didn't realize there are so many questions that could be asked about the eyes. In this way, you learn to look for everything and you know your mentor knows what the eyes look like. We were not impressed with the poor quality of the few photos in our previous studies. We discussed it with another doctor we got to know by doing another type of course. He also practices iridology together with other ways of doing healing. We showed him our study material. Very upset, he asked us where we got it. We told him it is our study material we got from the other doctor. He showed us a book. Word for word, photo for photo, drawing for drawing was his work he did for a thesis on iridology. Later our iridology mentor put all our study material on a CD. It is still all the same info as on paper. He named the CD "The science and practice in the healing arts". It is the same name as Dr. Bernard Jensen's volume 2 book. While typing this recommendation, I took a quick look at the CD again. I notice a few very good photos and wonder where he got these photos without a camera. I grab our Dr. Bernard Jensen's volume 2. All the photos are taken out of Dr. Bernard Jensen's volume 2. At the beginning of our course, we bought the book for ourselves and showed our mentor the good book. He didn't have it at that time, so I guess he must have bought one for himself. How can he say "copyright" on the CD if none of it is his work? We are very excited to work with Joyful Living Services and look forward to completing our "Certified Iridologist" course with you." - Hendrina du Plessis, South Africa

"Hi: I read your article on Hiatal Hernia. After suffering for years I took your suggestion and saw my Chiropractor and told him about it. He manipulated my stomach and I have seen a big improvement. I have not taken any Tagament for over 5 days and have managed to decrease my Prilosec in half. I still have a little discomfort, gas, bloating and sometimes burning in the throat, but not the pain that I previously had. I also drink water and stand on my toes and drop my heels to try to keep the stomach down. I am glad I took your suggestion. Hopefully I will get better." The Doctors just kept upping my dose and I think that also had negative effects." - M. Abreu

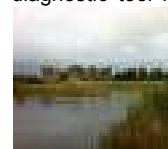

"I want to thank you and Joyful Living Services for all your support during my studies. Brenda your learning material in the [Certified Iridologist Series](#) is well presented and understandable. You do a great job in sharing your knowledge with us. You were very supportive and understanding when I had some questions to ask, and I usually received prompt feedback from you. I would highly recommend anyone that is interested in studying in this field. Keep up the good work and thank you very much for an excellent course." - Erika Botha, South Africa

"I just received news from my last ultra sound results and I wanted to share them with you. The cyst is cleared and the fibroids are growing minimally so no surgery. Thank you so much for all your help with this. I'm so grateful and happy."
– Victoria Rocha, California (Victoria is using the following Nature's Sunshine Products to help shrink her fibroids and avoid a hysterectomy: All-Cell Detox, Kelp, Red Clover, Breast Assured, and Thyroid Support)

"I have received your videos and am watching them right now. I am on the 2nd DVD already. It is a wonderful and very thorough review so far (I took the Ellen-Tart Jensen course in 2004). I love it. You are a very thorough instructor." – Gillian Marsollier, Canada

This is Denise Coyle, and I am a nutritional therapist living and working in Ireland. I have always been fascinated by iridology, so when I found the course offered by JLS I jumped at the chance to study. It is proving to be an invaluable diagnostic tool in conjunction with my nutritional therapy training. However, I found that as a beginner, it was taking me lots of time to study someone's iris, which meant that I had to hold a magnifying glass and flashlight for lengthy periods in their personal spaces, something that I myself would not appreciate. I started looking at iridology cameras, and comparing photos taken by all different types from all different price ranges. There was absolutely none that compared to the quality and clarity of the SD8004. Yes, it is on the more expensive side, but I believe it is well worth it. My Irish family has been kind enough to let me take photos of their irises for the practice.

Previously, I'd looked at their irises with a magnifier and light. But when I got the camera and saw the images produced, I was amazed and appalled at all that I had missed! There were so many more subtle markings and color variations that I would not have documented without the SD8004. I would not hesitate to recommend this camera to anyone who is serious about practicing iridology. Thanks especially to Brenda and Chris for working so closely with me to insure I got exactly what I wanted, and in a timely manner. Chris emailed to tell me the camera would be ready to use straight out of the box, and he wasn't kidding! He even included instructions on battery changing. If you decide to go with this camera, I would also highly recommend the Iridology Station 5.1 software - it's the perfect complement for analysis and organization!

My name is Mara Bramante. I live in Italy. I would like to thank both Brenda and Chris for all the assistance they gave me before and after receiving my [SD8004 Super Digital Iridology Camera](#). The camera has been my best purchase yet. It has facilitated my work as an iridologist. It takes such clear precise pictures, and above all, it is really easy to use. I have recommended the same SD8004 to 3 Italian colleagues, and I am proud to say that they are just as satisfied with the camera as I am, and they too, find working with it very simple and pleasant. This makes me very happy. While ordering the cameras, we were afraid to encounter problems with the shipment, but amazingly the delivery dates were respected and all four cameras arrived safely. What touched me is the way Brenda and Chris made sure to follow up on our orders very closely, and were always (and still are) available to answer any question or doubt. I will highly keep recommending it. Once again ... thank You Joyful Living!!

"Brenda, Stephanie's short and sweet message has brought an immense joy to my family's heart and we want to share this moment with you. You have been an outstanding mentor, a woman of great integrity and a true humanist. We hold you in great esteem in our heart and we will never stop expressing our sincere gratefulness and appreciation to you and Joyful Living Services." Dr. DC Tshibangu

"Good day Brenda, I am happy to let you know that I received the 2 'shipments' on Tuesday. Thank you very much for your dedication and support. The whole family was motivated by my 'Intermediate Iridology Certificate'. I am busy completing my 'Advanced Iridology', reading Dr. Jensen's Iridology Volume II and Mr. Mehlmauer's Sclerology. Very soon, I will start studying my Muscle Testing and may contact you for assistance if need be. My [SD8004 iridology camera](#) has also been retrieved from Customs yesterday. My elder daughter who is clinical and IT engineer will help me setting it up tomorrow with her boyfriend. We are all very much excited because we are slowly but surely fulfilling our dream. I sincerely express my deep appreciation to you and my family for your continued support and encouragement. Warm Regards" - Dr. DC Tshibangu

"Thank you for the [Certified Iridology course and supplies](#). I received them all intact and delighted with the materials and excited to start the course. Take care and thank you again for your great service and assistance." – Jenny

"Great news, the [SD8004 iridology camera](#) arrived. I thank you so much for all your help. Compliments to the New Year, hope you had a wonderful holiday." - Mrs. Allie

"My husband and I purchased the [CADI Digital Iriscope](#) earlier this year and we love it. It does an excellent job taking pictures – very sharp and clear and we are going to purchase the [Iridology Station Scanning Software](#) for it in the near future. Brenda and her staff have always been and continue to be very kind and helpful. Any questions or concerns we have whether it be health or equipment questions, are always answered promptly and cheerfully. Joyful Living Services is a great company to do business with and we highly recommend them to anyone from someone just getting in the herbal/iridology field to a very experienced person. Thank you again Brenda." – Deborah Bode, Better Health, Beautiful Body.

"I had a brown-eyed person come over today and tried the CADI camera on them. I was very pleased with the quality with the darker eyes." – Vicki Van Vynckt, vickijanevan@yahoo.com, <http://www.vanvyncktfineart.com>

"I have watched all the tapes in your iridology course and some a couple of times and I can say I have learned things I didn't get with David Pesek. Taking classes that I have, I know you know what you are doing so I would recommend anyone you sent me." – Lisa Nappier, St. Clair, MO

"Several years ago I took your class on clutter-the best! For me, releasing things I thought I'd use in the future, or that I thought were tied to my past, was such a relief, and an infusion of clarity and joy. Less really is more. It's wonderful to go from room to room and experience calm and beauty. It also cut back my spending habits, that realization that excess "stuff" is stifling. And, so importantly, that "stuff" has no value, experiences do. The little book that you recommended with the course is amazing also. You picked the perfect selections for the class, and reading the entire book was so helpful. Good to know you are still offering that class." - Jacqueline Perez, Auburn, CA

"I'm so happy to have found your article. I have been dealing with acid reflux since 2005 and last year a hiatal hernia was found. At that time the doctor told me it was nothing to worry about. Within the last 2 months my acid reflux has become worse. My PCP wanted to increase Prilosec but it's to a point now I can't even hold it down because it upsets my stomach. I don't understand how my PCP could not think my situation could be worse when a hiatal hernia does not repair itself. I have now been talking to my gastro doctor pushing for something to be done whether it's surgery or chiropractor. I have had a host of symptoms all related to acid reflux/hiatal hernia. I wish I could take aloe vera, but I'm allergic to it. Thanks again for your article!" - E.G.

"First, I wish to express my deepest gratitude to you and Joyful Living Services for the sustained support, guidance and advice regarding not only the selection of supporting books and other documentation needed in our study but also in the regular issuing of your newsletters that contribute in re-enforcing the information imparted by your formal syllabi and DVDs. Second, I have to congratulate you for the logical flow of information as presented in all your manuals and DVDs. Each DVD builds and consolidates the previous one and the provided explanation is dispensed in a manner that is friendly and totally inviting. Thirdly, I enjoyed the practical exercises. They appear 'simplistic' at first sight but after reading and studying the theoretical part of the course, they show their worth by crystallizing, refining and consolidating 'the vague notion' gathered during the theoretical reading. For me, they constitute the most rewarding part of this course. Once more well done and keep it up! It is worthy remembering that repetition is the 'sine qua non' for consolidation; consolidation is the cornerstone of a successful learning and successful learning boosts one's confidence and self-esteem; and this is without any doubt the basis for a successful iridology practitioner. For me the journey to a successful iridology practice in 2010 has started and there is no going back. I am enthusiastically motivated to move to the next step of my development with Joyful Living Services" - Dr. DC Tshibangu, S. Africa

"I am currently taking the Certified Beginning Iridology Course. There is a lot of information but I have found the course very easy to follow. I enjoy the videos and course information. Brenda is extremely knowledgeable and shares great information. Brenda is very supportive and offers great communication with questions that I have asked. I am extremely happy that I choose this course with Joyful Living Services and I look forward to continuing my learning with the next Iridology courses that are available." - Kimberly Muzzi - Guelph Ontario Canada

How CD-ROM Courses Work

Courses are on your own time and available anytime. Consists of course manual on CD-ROM in book form with table of contents, instruction, homework, and exam. Study the manual and complete the homework sessions. Send in the homework for grading. Complete the final exam and send in for grading and certification.

How Correspondence Courses Work

Courses are on your own time and available anytime. Consists of DVD, VHS or PAL videotape instruction, course instruction manual, practice manual, iris photo manual, syllabus manual, and test manual either printed & bound or on CD-ROM. Once your test is graded and returned to you, you will receive a "Certificate of Completion" for each course. All tests must be passed at 80% to receive a certificate of completion. Once you pass the advanced course, you can apply for the "Final Exam." The final exam costs \$50 and consists of 3 parts: written question and answer, constitutional analysis, and verbal. Once you have passed the final, you will receive a "Certificate of Achievement" stating that Joyful Living Services recommends you to the distinction of "Certified Iridologist." You can then be added to our Referral List on our web site located at <http://www.joyfullivingservices.com/referral.html> and received referrals.

How Online Courses Work

Courses are on your own time so you don't have to worry about going into school at any particular time. Once you have registered for the course you will be given the link to download all the course materials. Students receive a certificate at the end of each course once final exams are passed at 80%. Homework and tests are graded and returned to you. Courses can be taken at any time.

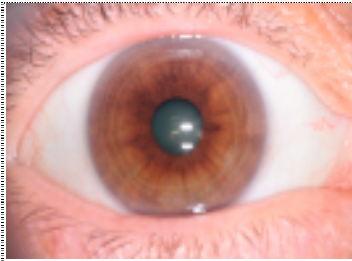

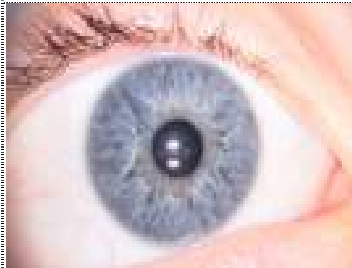

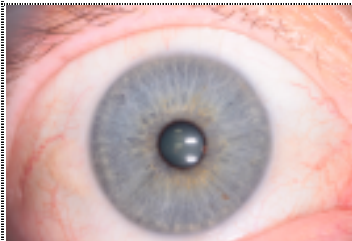

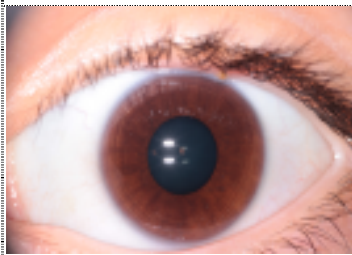

Payment Options

Payments are preferred in full and up-front for each course. However, we do accept monthly payments for all courses. You can pay for your courses in 1 full payment, 2 half payments or in 3-4 payments, whichever is easier for you. The monthly payment option requires prior approval by the JLS staff. Inquire if you need to make monthly payments. There are no payment options on CD-ROM courses, the Herbs & Your Health manual, and the Learn how to Muscle Test audio tape and manual set. These three must be paid in full up front. Payment for courses can be made by cash, personal check, money order, VISA, MasterCard, American Express, Discover, Western Union, and bank wire.

Health and Nutrition Courses

	<p>Online and CD-ROM course. Learn Human Development, Genetics, Body Organization, Cells, Tissues, Membranes, Integumentary, Skeletal, Muscular, Nervous, Respiratory, Digestive, Urinary, Endocrine, Reproductive, Blood, Heart, Vascular, Lymphatic and Immunity, Senses, Body Temperature, Metabolism, Fluid-Electrolyte, and Acid-Base Balance. 	<p>Online and CD-ROM course. The colon is one of most important organs in the human body. Most people do not realize that their colon is not functioning properly and consequently are unaware of the effects it can have on their health. This course is designed to teach you about the colon and how to heal it so that it functions properly.</p>	<p>Certified Colon Health Course</p>	<p>200.00</p>
	<p>Online course. Men's health refers to health issues specific to human male anatomy. These often relate to structures such as male genitalia or to conditions caused by hormones specific to, or most notable in, males. This course is designed to teach you about your body and how to keep it healthy as you live your life to its fullest.</p>	<p>Certified Men's Health Counselor Online Course</p>	<p>300.00</p>
	<p>Online course. Women's health refers to health issues specific to human female anatomy. These often relate to structures such as female genitalia and breasts or to conditions caused by hormones specific to, or most notable in, females. Women's health issues include menstruation, contraception, maternal health, child birth, menopause, and breast cancer. They can also include medical situations in which women face problems not directly related to their biology, for example gender-differentiated access to medical treatment. This course is designed to teach you about your body and how to keep it healthy as you live your life to its fullest.</p>	<p>Certified Women's Health Counselor Online Course</p>	<p>300.00</p>
	<p>Online and CD-ROM course. The science of nutrition is the study of the nutrients in food and the body's handling of these nutrients. You are made entirely of what you have eaten. Your skin, which has reliably covered you from the time you were born, is not the same skin that covered you seven years ago; it is made entirely of new cells. The fat beneath your skin is not the same fat that was there a year ago. Your oldest red blood cell is only 120 days old, and the entire lining of your digestive tract is renewed every three days. To maintain your "self", you must continually replenish the energy you burn and replace the cells you lose. This course is designed to teach you about proper nutrition and the role it plays in your health and the health of others. Course is certified and approved and offers 40 CECs through the Board of Registered Nursing – Provider No. 13837.</p>	<p>Certified Health & Nutrition Counselor Course</p> <p>AVAILABLE AS AN EBOOK</p>	<p>300.00</p>

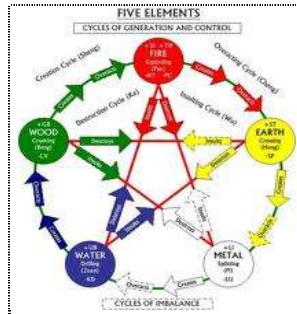

Iridology Courses

Herbal Courses

	<p>eBook, Online and CD-ROM course. Herbs perform many healing functions in the body, but they must be used appropriately, not indiscriminately. Although herbal remedies are less likely to cause side effects, they can be very potent. Not all plant life is beneficial. There are poisonous plants, and some of them are deadly, especially if used for long periods of time. Since herbs contain active ingredients, you should be aware that some of these elements might interact negatively with prescribed medications. This course is designed to teach you about the safety of herbs and how to use them appropriately. Sessions include: Introduction to herbs, Herbs and their Uses, The Action of Herbs, Digestive System, Intestinal System, Glandular System, Nervous System, Respiratory System, Circulatory System, Urinary System, Structural System, Immune System, Common Ailments and Historical Uses of Herbs, Weight Gain and Loss, Herbs & Surgery–The Combination Could be Dangerous, and Herbs that should not be used with Medications. Course is certified and approved and offers 40 CECs through the Board of Registered Nursing – Provider No. 13837.</p>	<p style="text-align: center;">Certified Herbal Counselor Course on eBook, CD-ROM, and Online</p> <p style="text-align: center;">AVAILABLE AS AN EBOOK</p>	<p style="text-align: center;">300.00</p>
	<p>Online and CD-ROM course. With the development of modern medicine, the tradition of using herbs and herbal remedies to prevent and fight illness, seems to have been lost. To reverse this trend “Joyful Living Services” in conjunction with “Med-Herbs” have designed this Advanced Herbal Counselor Course. This course describes the preparation and use of herbal teas, creams and oils in detail. In depth descriptions are included of over 60 herbs, plants, fruits and vegetables along with information in relation to harvesting times, methods of preservation and remedial properties. Additionally, this course considers various aspects of nutrition relative to the maintenance of general good health, specifically detailing vitamins and minerals found in fruits and vegetables. The overall aim of this course is to equip the student with a basic knowledge of herbs and herbal remedies that can be prepared and utilized in the home. Session include: Introduction to Herbs, Some rules while collecting herbs, How to dry herbs, Storage of herbs, and which herbs should we collect? Herbal Products: Home Pharmacy, Herbal Tea (Infusion), Herbal Soup (Decoction), Herbal Syrup, Tincture, Apple Cider Vinegar, Oil Extracts, and Ointments and Creams Vitamins, Minerals, Herbs & Plants, Action of Herbs, Digestive System, Intestinal System, Glandular System, Nervous System, Respiratory System, Circulatory System, Urinary System, Structural System, Immune System, Common Ailments and Historical Uses of Herbs from Recipes for Success, Weight Gain and Loss, Herbs and Surgery - The Combination Could be Dangerous, Herbs that should not be used with Medications and Quick Reference, Conditions and Herbs, APPENDIX: HERBS AND THEIR USES: Herbs from Alfalfa to Yucca, Final Exam, Certification, and Class Evaluation.</p>	<p style="text-align: center;">Certified Advanced Herbal Counselor Course on CD-ROM, and Online</p> <p style="text-align: center;">NEW!</p> <p style="text-align: center;">Take both the Certified Herbal Counselor and the Certified Advanced Herbal Counselor courses in January and pay only \$400 instead of \$600 and save \$200!</p>	<p style="text-align: center;">300.00</p>

Herbal and Homeopathic Courses - Continued

Online and CD-ROM course. Chinese Herbology is the theory of Traditional Chinese herbal therapy, which accounts for the majority of treatments in Traditional Chinese medicine (TCM). Traditional Chinese Medicine has its origin in ancient Taoist philosophy which views a person as an energy system in which body and mind are unified, each influencing and balancing the other. Unlike allopathic medicine which attempts to isolate and separate a disease from a person, Chinese Medicine emphasizes a holistic approach that treats the whole person. Many people have found Traditional Chinese methods of healing to be excellent tools for maintaining optimum health and preventing illness. Topics include: Introduction and History, What is Traditional Chinese Medicine? How can Chinese Herbs help? What does Yin and Yang mean? Categorization: The Four Natures, The Five Flavors, Categorization: The Meridians, Specific Function, Raw Materials, Preparation, Toxicity, Efficacy, Chinese Patent Medicine, How are Chinese Herbs prescribed?, 50 Fundamental Herbs in Use, A-Z Guide for Chinese Herbs, How does Chinese herbal practice differ from other types of clinical herbology?, The dangers of using single symptoms or medical disease labels to choose herbs, The dangers of not paying attention to one's symptoms and sensations, Choosing herbs is like following a road map; first, you need the right map. Ancient Chinese physicians compile precise symptom-sign "maps" of human health, How does Chinese herbal practice differ from other types of clinical herbology? Syndromes A-Z and Chinese Herbal Remedies, Conditions A-Z and Chinese Herbal Remedies, Chinese Nutrition: Applying Dietary Therapy, Chinese Nutrition by Food Group, Medicinal Action of Food, Self-Healing: What is Qi Gong?, What is Tongue Diagnosis?, What is Tuina? What is Acupuncture?, What is Cupping?, What is Ear Acupuncture?, What is Mien Shiang (Chinese Face Reading)? Age-to-Dose & Weight-to-Dose Dosing Guidelines, Herbalism for Pets

Pre-Owned Startech Health Pegasus EDS System Available

I have a Startech Health Pegasus EDS system that I am selling for a significantly discounted price. The system is fully functional and is in new condition. I purchased the system for \$8595. Included is the complete CEDS system hardware that connects to laptop or desktop via USP port, software (Windows) which includes large database of all popular herbal/nutritional product lines (eg. Nature's Sunshine, Metagenics), a built-in Energy Transfer Unit (Imprinter), and training manuals. I am selling,

because I am getting out of consulting business.

Electro Dermal Screening is a very effective tool and is ideal for practitioners wishing to do Bio-Energy Assessments. Using the knowledge of 5,000 years of Traditional Oriental medicine, along with modern physics and chemistry, Computerized Electro Dermal Screening measures the balance or imbalance of energy within the body. This is accomplished by a simple, non-invasive test, using points found along the meridians of the hands and feet. Because the body will always have an energy imbalance before a chemical change occurs, the ability to treat with higher accuracy and effectiveness can be accomplished. Once the imbalances of the body have been determined, a remedy is then found which resonates in harmony with the body's energy. This remedy can then aid the body in healing itself and a personal wellness program can be designed specifically for the client.

Major functions include:

- Screen the energy levels of the body
- Identify toxic substances that affect the body
- Screen vitamin and mineral profile
- Identify balancing remedies
- Create homeobioenergetic remedy using energy transfer

Professional Training is available from StarTech Health. Visit website [/www.startechhealth.com](http://www.startechhealth.com) for detailed product and training information.

If you are interested in purchasing this unit or know of any practitioners who would be, please contact me. I will take the best offer.

I can be reached at 585-729-1326 or by email at jfosterny@me.com.

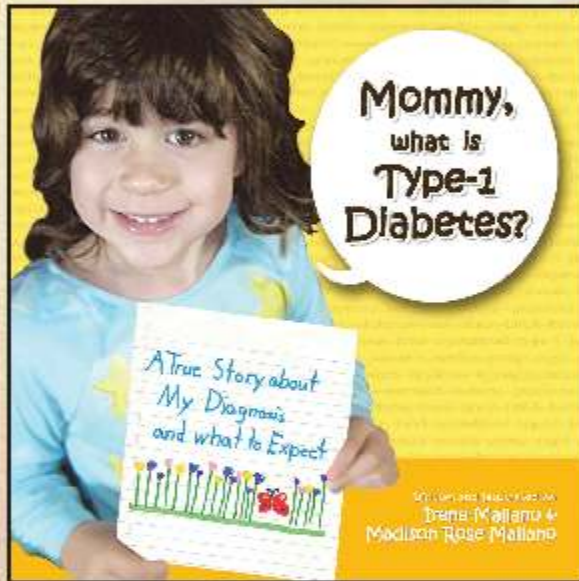

Thank you,
Julie Foster

Mommy, What is Type-1 Diabetes?

A True Story About my Diagnosis and What to Expect

Irene Mallano and Madison Rose Mallano

www.mommywhatisdiabetes.com

About the Book

A true story that provides a lot of information in a special story line written for children diagnosed with Type1 Juvenile Diabetes and their families. The reader will get a glimpse into this new world and all they must learn and understand along with her drawings and photographs. The parents section inside the book provides support, tips and a symptoms page to raise awareness for everyone. It is a great book for a newly diagnosed child and family to read.

About the Author

Madison Rose was diagnosed with Type-1 juvenile diabetes at a young age. Her parents thought their world had caved in; there was so much to learn. After settling into their new routine, Madison was doing all the things she used to love to do. The family grew to understand that even though diabetes has its many challenges, it would not be impossible to live a happy life. In fact, it was Madison's idea to her mom, Irene to create this book to help others.

**For Sale ~ QFA™ 300 (Quantitative Fluid Analysis) \$2,250.
New \$7250.00**

The QFA 300 (Quantitative Fluid Analysis) is a computerized device used to monitor the body's Biological Terrain. It involves the monitoring of your saliva and urine for pH, redox and resistivity. These parameters may provide valuable information about your body's cells and the interstitial environment called the Biological Terrain that nourishes those cells.

Following a 12-hour fast, first morning urine and saliva specimens are obtained. The QFA 300™ device then assesses these fluids. Results are obtained within minutes, offering you valuable information. This data may increase your understanding of your specific biochemical requirements. This information may help you to choose a diet and nutritional program that best suits your particular needs.

Your QFA™ analysis measures the values of pH, redox and resistivity. These measurements may offer valuable information about the electrons, minerals, hydration and nutrients in your Biological Terrain environment. Because your biochemistry is unique, these values may help your clinician design the nutritional program that is best suited for your particular needs. **A QFA™ does not diagnose an illness or disease; it monitors specific parameters of your Biological Terrain.**

Your pH measurement will indicate the acidity or alkalinity of your biological fluids. Specific pH levels are necessary for optimum digestion and absorption of foods, activation of enzymes and binding of hormones with their receptor sites.

Your redox measurement may provide data regarding the level of electrons in your fluids. Electrons are essential for life. Long-term exposure to such factors as chronic stress, poor diets, environmental toxins, chemicals and damaging organisms such as viruses, bacteria and fungi may interfere with the cells' abilities to produce the substances needed for electron and ATP production.

Your resistivity results involve the measurement of minerals in your fluids. Minerals are needed for many critical actions and reactions in the body, as well as for building and maintaining bone and muscle tissue. When fluids become congested with too many minerals, stagnation and congestion may occur which may limit the cells' abilities to function optimally. Too few minerals in the fluids may limit the body's ability to maintain its bone and muscle function.
