

Welcoming our most innovative iridology camera yet!

Meet the EyeRonec Pebble PRO

ONLY
\$795.00

Plus Shipping

The Pebble Pro is our latest and most advanced iridology camera yet!

It's so easy to install and use, *simple as 1, 2, 3*

1. Install of the software on your Windows or use the in-built Photo Booth software on your Mac and you are ready to go!
2. Plug the Pebble Pro into your USB port and you'll see a Live 5MP Preview on your computer or laptop screen.
3. Place the rotatable eye-cup over your patients eye and take a photo with the snap button (Win) or with the mouse (Mac/Win).

YES, it really is that simple! However if you do have any trouble with operating the Pebble camera our support team will do there best to help!

We are so confident with the Pebble Camera's that we now offer a **LIFETIME GUARANTEE*** with all of our Iridology Camera's. We also include a download of EyeRis Iridology Reporting software*

* Lifetime Guarantee subject to Terms and Conditions found on iridology.nl. EyeRis software is not compatible with Win 10 or Mac OSX
