

Become a Certified Women's Health Counselor Online and CD-ROM Course

Joyful Living Services is giving a Certified Women's Health Counselor Online and CD-ROM Course.

Course Details

This course contains 16 lessons on the web or on CD-ROM. The files are in PDF format and are ready to download or are on CD-ROM. You will receive a certificate at the end of this course and you can carry the CWHC initials after your name once you have passed the course.

There is homework with each session and there is a test at the end of the course. The homework and test will be graded as you turn them in. They will need to be mailed, faxed, or e-mailed to us.

This course is on your own time so you can complete the lessons at your own pace. If you are going on vacation, are ill, or don't have the time every week to read the lesson and complete the homework you will not be penalized. Because this course is online and is on your own time, you are responsible for turning in your homework when it is done. You will receive your certificate once all the homework has been turned in and once your final exam is graded and passed at 85%.

Course Cost

This course costs \$300. The course can be paid in full up-front, in two payments, or monthly (whichever is easier for you). It can be paid by check, credit card, or bank wire. Once you have completed this course online, we will send you the CD-ROM for your library.

Special Double Course Discount

If you would like to take two courses at the same time, you can take them for a discount of \$100. Both courses you choose will cost \$500 instead of the regular price of \$600. Let us know if you want to take advantage of this special double course discount when you register.

Course Definition

Women's health refers to health issues specific to human female anatomy. These often relate to structures such as female genitalia and breasts or to conditions caused by hormones specific to, or most notable in, females. Women's health issues include menstruation, contraception, maternal health, child birth, menopause, and breast cancer. They can also include medical situations in which women face problems not directly related to their biology, for example gender-differentiated access to medical treatment. This course is designed to teach you about your body and how to keep it healthy as you live your life to its fullest.
