

Welcome everyone!

How to do an Iris Analysis

- Welcome Client
- Show them where to sit
- Have them sign the disclaimer
- Go over the iridology chart
- Take their iris and sclera photos
- Download photos onto computer. Put in client folder with last name, first name, Eye position and date
- Use iridology assessment software or forms to analyze the eyes
- Use the 10x magnifying glass to look for markings if needed

1. Welcome Client
2. Show them where to sit
