

How to do an Iris Analysis

How to do an Iris Analysis

- Welcome Client
- Show them where to sit
- Have them sign the disclaimer
- Go over the iridology chart
- Take their iris and sclera photos
- Download photos onto computer. Put in client folder with last name, first name,
 - Eye position and date
- Use iridology assessment software or forms to analyze the eyes
- Use the 10x magnifying glass to look for markings if needed
