JOYFUL LIVING SERVICES

How to Perform an Iris Analysis

- Welcome Client
- Show them where to sit
- Have them sign the disclaimer if they haven't done so online
- Have them hand you their intake form if you didn't receive it online
- Go over the iridology chart
- Take their iris and sclera photos
- Download photos onto computer. Put in client folder with last name, first name, eye position and date (see example)
- Use iridology assessment software or forms to analyze the eyes
- Use the 10x magnifying glass and side lighting to look for markings if needed
