There are many iridology cameras, systems, and devices on the market. The key Is the customer service behind the device.

Considerations:

1. Professional vs. Student Camera
2. Megapixels
3. Price
4. Customer Service
5. Reputation

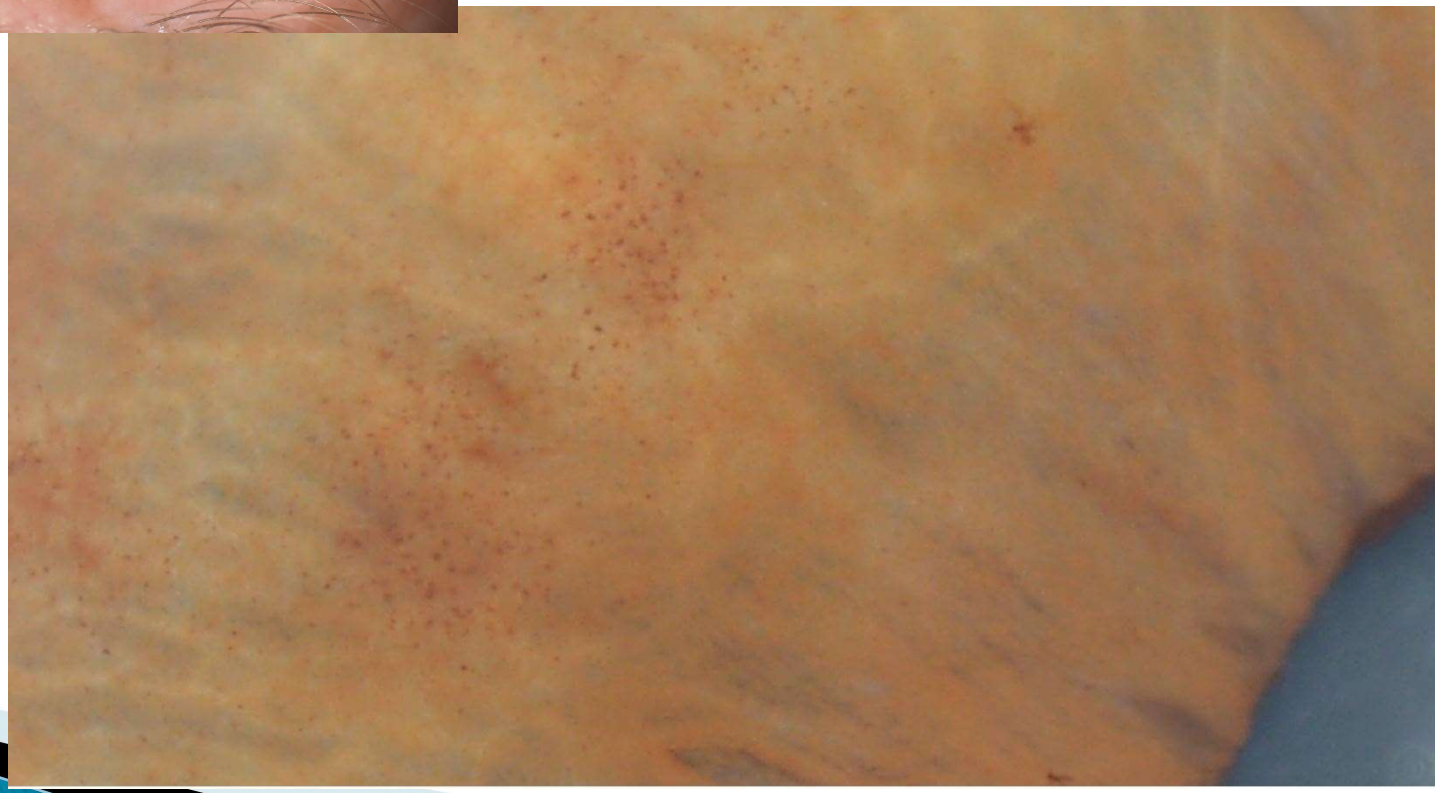
The question is: What quality
Picture do you want for your client
And your business.


This photo was taken
with the SD8004
and enlarged
on the HP laptop
monitor then
snipped.
