

# RENEWED LIFE WELLNESS CENTER offers an age-defying product with AMAZING results!

The *Nerium oleander* plant has been used for centuries by traditional herbal practitioners, but due to various components of the plant, it has also been associated with negative stories. When researchers discovered the potential of the *Nerium oleander* extract in producing age-defying improvements in the appearance of skin, their first concern was for the safety of those using the product. The discovery of using *Nerium oleander* in a skincare capacity was truly accidental. Following this finding, scientific steps were taken to create a product harnessing the power of *Nerium oleander*. This process included the selection of appropriate product components (such as aloe), development of innovative technology related to the extraction of *Nerium oleander* leaves, unique blending of the aloe-based oleander extract into a useful cream-based cosmetic product, safety testing, and preclinical and clinical testing to assure product efficacy and utility.

## HOLDING BACK THE HANDS OF TIME ~ CUSTOMER RESULTS
